

Relive the Adventure With Stewart-Warner's Iconic Reverse-Sweep Speedometer

It's the return of a legend.

Stewart-Warner's renowned Reverse-Sweep Speedo was standard equipment in the Shelby Cobra and the Daytona Coupe. The speedometer that clocked record speeds against the Ferrari is again available to you, with its unique counterclockwise sweep and its original Stewart-Warner style.

The Reverse-Sweep Speedometer is backed by Stewart-Warner's 24-month warranty, and comes with a full range of accessories available.

For over 100 years, the Stewart-Warner name has set the standard for instruments in the market. From the Ford Model T speedometer, to instruments in WWII tanks, to today's Deluxe Line, Stewart-Warner has always provided performance you can count on.
