

Stewart-Warner's **TRANS AM** TACHOMETER

Designed for performance. Chosen for speed.

The Trans Am tachometer, part of Stewart Warner's Deluxe Family, has a shift point at the 12 o'clock position, between 6500 and 7000 RPM for racing applications.

P/N: 82787

FEATURES

- 0 – 8000 RPM
- 3 3/8" Diameter
- 12 O'clock Shift Point
- Red Background, White Numerals, and Pointer
- Polished Stainless Steel Bezel

Inspired by the Trans Am Race Series, it features a red face dial to make it stand out in the dashboard. The Trans Am Electric Tachometer is backed by Stewart Warner's 24-month warranty, and has a full range of accessories available.

For over 100 years, the Stewart-Warner name has set the standard for instruments in the market. From the Ford Model T speedometer, to instruments in WWII tanks, to today's Deluxe Line, Stewart-Warner has always provided performance you can count on.
