

AVIATOR GAUGE LINE

A NEW LOOK FOR YOUR CLASSIC, RESTO MOD, OR VINTAGE RIDE

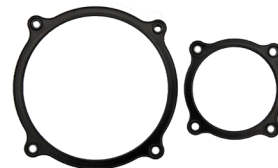

Be the pilot of your dream vehicle with the Aviator gauge line. Modeled to look like the classic aircraft gauges of the 40s and 50s, Aviator gauges feature cream and black pointers with perimeter-lit white and tan graphics, which are all offset by a black background. Adding the optional four-hole flanges will complete the creation of your complete iconic airplane-style dashboard.

Aviator Gauge Line

Gauge	P/N	Scale	Diameter	Bezel/Finish	Volt
